

"Our new state of the art Trading Center at 1155 Perimeter Center West was a fast-paced project with design/build issues. Ron and his team helped us manage these issues to insure we were on the road to success. Throughout the project, Ron displayed a complete understanding of the process and served as a catalyst to bring all members of the design and building teams together. Daneault and Associates was instrumental in helping us achieve our goal on schedule and within budget."
